PREVENTIVE SERVICE

CT Body Scan

Your health shouldn't be a guessing game. Our CT body scan detects cancer, heart disease, aneurysms, and other serious conditions before symptoms appear.

- Detects cancerous and abnormal growths early
- Cardiac calcium scoring for heart disease risk
- Identifies aneurysms and vascular issues
- Screens for lung conditions including early lung cancer
- No insurance or referral required

PREVENTIVE IMAGING

CT SCAN PHOTO HERE

SCAN TIME 10 Minutes	REPORT Board-Certified Radiologist
REFERRAL Not Required	INSURANCE Not Required

PREVENTIVE SERVICE

MRI Body Scan

High-resolution insights into your soft tissues, spine, and organ health using magnetic fields and radio waves — no ionizing radiation.

- High-resolution soft tissue imaging
- Brain and neurological health assessment
- Spinal evaluation for degenerative changes
- Liver, kidney, and abdominal health screening
- Expert radiologist interpretation included

PREVENTIVE IMAGING

MRI SCAN PHOTO HERE

SCAN TIME 45 Minutes	RADIATION Zero Exposure
REFERRAL Not Required	INSURANCE Not Required

PREVENTIVE SERVICE

★ MOST COMPREHENSIVE

MRI Body Scan Plus

Our most comprehensive imaging solution — combines high-resolution MRI and precision CT scanning for a complete evaluation of major organs, soft tissues, and vascular health.

- Combines MRI and CT for a complete picture
- Includes coronary calcium score for heart health
- Detects heart disease, cancer, neurological conditions
- Detailed area of concern evaluation
- Priority scheduling and results review

PREVENTIVE IMAGING

MRI + CT PHOTO HERE

SCAN TIME 60 Minutes	IMAGING MRI + CT Combined
REFERRAL Not Required	INSURANCE Not Required

PREVENTIVE SERVICE

Brain MRI / MRA Scan

Your brain controls everything. Our Brain MRI and MRA scans provide a comprehensive look at neurological and vascular health — going beyond surface-level health checks.

- Detects aneurysms and vascular abnormalities
- Pinpoints strokes and blood clots early
- Finds brain tumors and cysts before symptoms
- Assesses Alzheimer's and dementia risk
- Non-invasive — zero radiation exposure

NEUROLOGICAL IMAGING

BRAIN SCAN PHOTO HERE

SCAN TIME 30–45 Minutes	RADIATION Zero Exposure
REFERRAL Not Required	INSURANCE Not Required

PREVENTIVE SERVICE

Virtual Colonoscopy

Say goodbye to the stress of traditional colonoscopies. No sedation, no long recovery — just a fast, non-invasive scan. Get back to your day without missing a beat.

- No sedation required
- No long recovery time needed
- Detects polyps and abnormal growths
- Identifies structural changes in the colon
- No insurance or referral required

PREVENTIVE SCREENING

VIRTUAL COLONOSCOPY PHOTO HERE

PROCEDURE TIME 15–20 Minutes	SEDATION Not Required
RECOVERY Same Day	INSURANCE Not Required

PREVENTIVE SERVICE

Thyroid Ultrasound

Our thyroid ultrasound screening evaluates your thyroid gland for nodules, inflammation, and structural abnormalities — providing real-time insights with zero radiation.

- Non-invasive, radiation-free imaging
- Real-time visualization of thyroid
- Detects nodules and masses
- Identifies inflammation and disorders
- Same-day results available

ULTRASOUND SCREENING

THYROID ULTRASOUND PHOTO HERE

PROCEDURE TIME 15–20 Minutes	RADIATION Zero Exposure
RESULTS Same Day	PREPARATION None Required

PREVENTIVE SERVICE

Carotid Artery Scan

Your carotid arteries supply blood to your brain — plaque buildup significantly increases stroke risk. Our quick, painless scan evaluates blood flow and detects plaque.

- Evaluates stroke risk non-invasively
- Detects plaque buildup in arteries
- Assesses blood flow to the brain
- Critical for cardiovascular risk assessment
- Actionable results for prevention

VASCULAR SCREENING

CAROTID ULTRASOUND PHOTO HERE

PROCEDURE TIME 20–30 Minutes	RADIATION Zero Exposure
REFERRAL Not Required	INSURANCE Not Required

PREVENTIVE SERVICE

★ BREAKTHROUGH TECHNOLOGY

Cancer Blood Test

A simple test for early cancer detection. Our Cancer Blood Test uses advanced technology to detect cancer signals in your bloodstream before symptoms appear — with a single blood draw.

- Detects multiple cancer types from one draw
- Earlier detection than traditional methods
- Simple, non-invasive blood draw
- Complements other screening approaches
- Actionable results for peace of mind

REGENERATIVE MEDICINE

Reclaim Your Mobility. Restore Your Life.

Advanced biologic treatments that work with your body's natural healing processes to restore mobility, reduce pain, and help you return to the life you love.

- **Non-surgical approach**
  No operating room. No long recovery.
- **Natural biologic treatments**
  Works with your body's own healing processes.
- **Same-day procedures**
  Most patients resume activities immediately.

WHY REGENERATIVE MEDICINE

Not just managing pain. Changing the outcome.

Personalized treatment plans that address the root cause — not just the symptoms — for long-term mobility improvement and lasting results.

Same Day Return to activities	**0** Surgery required
Natural Biologic approach	**Long-term** Relief, not masking

LIFEGENIX
INSTITUTE

THE CHALLENGE

Limited Mobility

Joint pain restricts movement, making simple tasks feel impossible and stealing your independence.

THE SOLUTION

Restored Movement

Natural biologic treatments support tissue repair and joint function, helping you move freely again.

- Non-surgical · Same-day recovery

LIFEGENIX
INSTITUTE

THE CHALLENGE

Disrupted Daily Life

Activities you once enjoyed become sources of pain — walking, climbing stairs, or even getting out of bed.

THE SOLUTION

Life Without Limits

Our regenerative approach addresses the root cause, returning you to the activities that bring you joy.

- Root cause treatment · Long-term results

LIFEGENIX
INSTITUTE

THE CHALLENGE

Fear of Surgery

Traditional solutions often mean invasive procedures with long recovery times and uncertain outcomes.

THE SOLUTION

Non-Surgical Relief

Advanced biologic therapies promote natural healing without surgery — most patients are up the same day.

- No surgery · Back on your feet same day

REGENERATIVE MEDICINE

Arthritis Pain Relief

A comprehensive approach to arthritis management — reducing inflammation, supporting joint tissue, and potentially slowing disease progression across all joint types.

Osteoarthritis | Rheumatoid | Psoriatic | Post-traumatic | Gout

- Reduces chronic inflammation at the source
- Supports remaining joint tissue
- May slow disease progression
- Non-surgical pain management

TREATMENT APPROACH

ARTHRITIS TREATMENT PHOTO HERE

Not just managing pain. Changing the outcome.

1. Biologic injections for joint regeneration
2. Platelet-rich plasma (PRP) therapy
3. Hyaluronic acid supplementation
4. Lifestyle and nutrition guidance

LIFEGENIX
INSTITUTE

REGENERATIVE MEDICINE

Advanced Solutions for Joint Pain

Our biologic treatments target the source of your pain, promoting natural healing across all major joint areas — without surgery, without long recovery.

Knee
Stairs & mobility

Ankle
Balance & stability

Elbow
Grip & function

Shoulder
Reach & strength

Hip
Movement & gait

Wrist
Fine motor tasks

EVERY JOINT. ONE SOLUTION.

JOINT THERAPY PHOTO HERE

1. Biologic injections for joint regeneration
2. Platelet-rich plasma (PRP) therapy
3. Anti-inflammatory protocols
4. Personalized rehabilitation programs
5. Joint-specific precision treatments

JOINT PAIN RELIEF

"Walking. Climbing stairs. Your independence."

Knee Pain Relief

- Osteoarthritis & degenerative joint disease
- Torn meniscus and ligament injuries (ACL, MCL)
- Tendonitis, bursitis & sports overuse
- Instability and giving-out sensation

TREATMENT APPROACH

KNEE TREATMENT PHOTO HERE

1. Biologic injections for cartilage regeneration
2. Platelet-rich plasma (PRP) therapy
3. Anti-inflammatory treatments
4. Personalized rehabilitation protocols
5. Joint lubrication therapies ★ Knee-specific

APPROACH	SURGERY
Non-Surgical	May Be Avoided

LIFEGENIX
INSTITUTE

JOINT PAIN RELIEF

"Balance. Confidence. Every step."

Ankle Pain Relief

- Ankle sprains & ligament injuries
- Achilles tendon problems
- Chronic instability & frequent rolling
- Difficulty bearing weight on the foot

TREATMENT APPROACH

ANKLE TREATMENT PHOTO HERE

1. Regenerative biologic injections
2. Platelet-rich plasma (PRP) therapy
3. Anti-inflammatory protocols
4. Customized physical therapy guidance
5. Ligament & tendon support ★ Ankle-specific

APPROACH
Non-Surgical

RECOVERY
Minimal Downtime

JOINT PAIN RELIEF

"Lifting a coffee cup. Shaking hands."

Elbow Pain Relief

- Tennis elbow & golfer's elbow
- Weak grip strength & forearm pain
- Osteoarthritis & repetitive strain
- Pain when gripping, lifting or twisting

TREATMENT APPROACH

ELBOW TREATMENT PHOTO HERE

1. Biologic injections for tendon healing
2. Platelet-rich plasma (PRP) therapy
3. Anti-inflammatory protocols
4. Rehabilitation & strengthening guidance
5. Ultrasound-guided precision treatments ★ Elbow

APPROACH	STEROIDS
Non-Surgical	Not Required

LIFEGENIX
INSTITUTE

JOINT PAIN RELIEF

"Reaching a shelf. Getting dressed."

Shoulder Pain Relief

- Rotator cuff tears & frozen shoulder
- Night pain that disrupts sleep
- Impingement syndrome & osteoarthritis
- Weakness when lifting or carrying

TREATMENT APPROACH

SHOULDER TREATMENT PHOTO HERE

1. Biologic injections for rotator cuff healing
2. Platelet-rich plasma (PRP) therapy
3. Ultrasound-guided precision treatments
4. Anti-inflammatory protocols
5. Rehabilitation & mobility exercises

APPROACH
Non-Surgical

SURGERY
May Be Avoided

JOINT PAIN RELIEF

"Getting in and out of the car."

Hip Pain Relief

- Osteoarthritis & labral tears
- Bursitis & hip impingement (FAI)
- Limp or altered gait
- Groin & thigh pain with activity

TREATMENT APPROACH

HIP TREATMENT PHOTO HERE

1. Biologic injections for hip joint regeneration
2. Platelet-rich plasma (PRP) therapy
3. Anti-inflammatory & lubrication treatments
4. Customized rehabilitation programs
5. Fluoroscopy-guided injections ★ Hip-specific

APPROACH
Non-Surgical

REPLACEMENT
May Be Avoided

LIFEGENIX
INSTITUTE

JOINT PAIN RELIEF

"Typing. Cooking. Driving."

Wrist Pain Relief

- Carpal tunnel & TFCC injuries
- Numbness or tingling in hand & fingers
- De Quervain's & tendinitis
- Weakness in grip strength

TREATMENT APPROACH

WRIST TREATMENT PHOTO HERE

1. Targeted biologic injections
2. Platelet-rich plasma (PRP) therapy
3. Ultrasound-guided precision treatments
4. Anti-inflammatory protocols
5. Hand therapy & rehabilitation ★ Wrist-specific

APPROACH	NERVE SYMPTOMS
Non-Surgical	Addressed

LIFEGENIX
